

Set Top Box (STB) User Manual

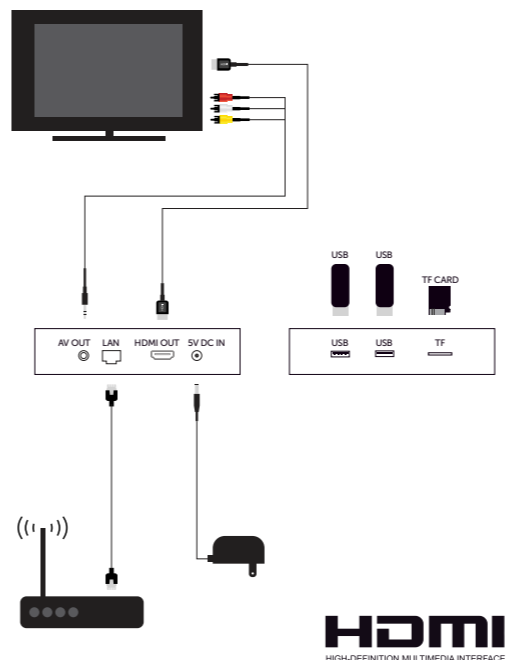

1 Connection

AV Connection

- Connect the AV cable of the 3 color (red/white/yellow) to the STB's AV output interface, and the other end to the TV's AV input interface. Connection can be made by colour.
- Power on the STB. Set the TV video mode to AV input.

HDTV Connection

- Connect HDMI cable to the STB output interface, and the other end to the TV's HDMI input interface.
- Power on the STB. Set the TV video mode to HDTV input.

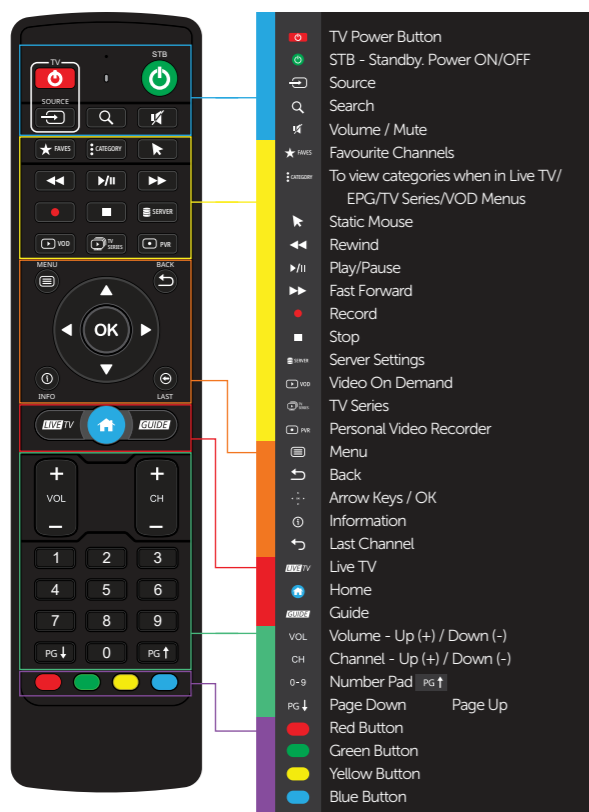

2 Troubleshooting

Warning: Under no circumstances should you try to repair the STB by yourself, as this will invalidate the warranty. Do not open it as there is a risk electrical shock. If any fault occurs, please first check with this troubleshooting checklist. If you are unable to remedy a problem by following this guide, contact your dealer for help.

The contents of the USB or flash drive cannot be read	<ul style="list-style-type: none"> The USB or flash drive format is not compatible with the box If one of the USB can not be read, please turn off the TV box for 30 seconds and restart the TV box
Slow operation of the USB flash drive	<ul style="list-style-type: none"> Large file size or high resolution USB flash drive takes longer time to read and display on the TV screen
The TV screen is blank and the player LED is blinking	<ul style="list-style-type: none"> Turn off the TV box, wait 30 seconds and turn on again Check if HDTV connection is correct or try changing the HDTV cable

3 Remote + Button List

4 Learning Remote Feature

Learning methods please see as below:

- Press and hold "Power"+"OK" more than 3 seconds, the LED will be turned on, indicates the remote enters learning mode.
- Align the IR tube of the remote control with the IR tube of the remote control which needs to be learned within 3cm.
- Press the "TV Power" button on the remote control, the LED will change from long light to slow flashing, waiting to receive the learning signal. Press the button of the remote control which needs to be learned and keep it sending the IR code. When the remote controller receives the learning signal, the LED flashes 3 times and then long light, indicating that the learning signal is received.
- Repeat step c to learn "Source" key.
- Press the "OK" key, then the LED turned off, indicates the code has been save and exit the learning mode.

5 Lights & Indicators

Status Lighting on Front of STB indicates the following:

- Blue - ON
- Red - OFF
